Memorandum

To Board of Works Date May 26, 1981

From Aaron M. Gluck, Director of Purchases

Subject Bid Reference Number 596

COPIES TO:

Attached are copies of Bids received for Water Meters for the Water Maintainence and Service Department. Purchase Order Number 4-09488 has been assigned to Badger Meter, Inc.

The alternate bids received from Badger Meter, Inc. meet all specifications as required.

The City currently has over 2,600 Badger Meters in the system dating back to 1950, and have found that they perform very well.

Please include the attached supporting information when this ordinance is submitted to City Council for Prior Approval/Approval. Also, please insure that no confirming Purchase Order number is given to Badger Meters, Inc. until Purchasing receives written confirmation of Council Approval.

Aaron M. Gluck, Director
Department of Purchases

AMG/nan

2. Since Badger's Recordall #25 meets American Water Works Association Standards of 3/4" meters; their 5/8" X 3/4" Recordall #25 meters should be purchased instead of the 3/4" split case meter which was offered.

3. Badger has submitted the lowest bid for meters to be supplied and offered the highest scrap return allowance and, therefore, should be awarded the contract.

Although we have not purchased Badger meters for a number of years, I have no reason to question their reliability. The reason they were dropped, back in 1966 or 1967, was that we had been using four brands of meters and it was ruled we would reduce to a maximum of three brands of all equipment requiring stocking of repair parts. They drew the unlucky straw and was dropped in favor of Rockwell, Neptune and Hersey. I have not seen a Hersey representative in this area for a long time, and they did not offer a bid this year. Therefore, I see no problem in awarding to Badger.

If you should have any questions regarding the above observations or recommendations, I am at your disposal to discuss them.

D. L. Foland

NEPTUNE WATER METER COMPANY

For A. J. Malloy Jr. Name of Company Title Regional Sales Manager

Address 9200 Shelbyville Rd. Suite 625

Louisville, KY 40222 3/30/81

All water meters bid on and supplied to the Fort Wayne Water Utility, shall be manufactured in accordance with the latest revision of the appropriate American Water Works Association standard, designated for the particular type of meter to be bid and/or supplied as enumerated hereafter. All water meters shall have a bronze case and cast-iron frost, protective-type bottom plate; internal gear train shall be of magnetic coupling type; displacement type meters shall have a disc or piston-type measuring chamber; and all registers shall be of the Odometer type, calibrated in cubic feet (not in gallons).

Where options exist for fronze or plastic register covers and lids, which meet AWWA specifications (all other specs. same as above) and which can be punch-stamped by the Utility with meter identification number, bidder may provide separate alternate bids.

Where options exist for cast-bronze or injected molded plastic measuring chamber (all other specs. same as above), bidder may provide separate alternate bids.

OPTION RENEWAL

By mutual agreement between Utility and the supplier, the contract period may be extended for an additional period not to exceed one (1) year. However, the agreement to extend must be completed in writing not less than fifteen (15) days prior to expiration date. The contract may be extended only at the same price and under the same conditions governing the original contract.

AWWA Standards for Various Types of Meters

a. Displacement-type cold water meters shall be in accordance with AWWA Standard C700;

b. Compound-type cold water meters shall be in accordance with AWWA Standard C702;

c. Fire service-type cold water meters shall be in accordance with AWWA C703;

d. Turbine-type cold water meters shall be in accordance with AWWA C701;

e. Propeller-type cold water meters shall be in accordance with AWWA C704.

CARLON METER COMPANY
Name of Company

By Paul Lutz This Vice President

Address 715 Robbins Rd.

City Grand Haven, Mi. 49417 Date 3/30/81

SPECIFICATION FOR WATER METERS

All water meters bid on and supplied to the Fort Wayne Water Utility, shall be manufactured in accordance with the latest revision of the appropriate American Water Works Association standard, designated for the particular type of meter to be bid and/or supplied as enumerated hereafter. All water meters shall have a bronze case and cast-iron frost, protective-type bottom plate; internal gear train shall be of magnetic coupling type; displacement type meters shall have a disc or piston-type measuring chamber; and all registers shall be of the Odometer type, calibrated in cubic feet (not in gallons).

Where options exist for fronze or plastic register covers and lids, which meet AWWA specifications (all other specs. same as above) and which can be punch-stamped by the Utility with meter identification number, bidder may provide separate alternate bids.

Where options exist for cast-bronze or injected molded plastic measuring chamber (all other specs. same as above), bidder may provide separate alternate bids.

OPTION RENEWAL

By mutual agreement between Utility and the supplier, the contract period may be extended for an additional period not to exceed one (1) year. However, the agreement to extend must be completed in writing not less than fifteen (15) days prior to expiration date. The contract may be extended only at the same price and under the same conditions governing the original contract.

AWWA Standards for Various Types of Meters

a. Displacement-type cold water meters shall be in accordance with AWWA Standard C700;

b. Compound-type cold water meters shall be in accordance with AWWA Standard C702;

c. Fire service-type cold water meters shall be in accordance with AWWA C703;

d. Turbine-type cold water meters shall be in accordance with AWWA C701;

e. Propeller-type cold water meters shall be in accordance with AWWA C704.

KENT WATER METER GUARANTEE AND PERFORMANCE ASSURANCE PROGRAM

Effective July 1, 1979

Kent Water Meter Guarantee
Bronze and Polymer Models

Kent Meter Sales, Inc. guarantees its 5/8", 3/4" and 1" PSM and C-700 Water Meters to be free from defects in materials and workmanship for a period of eighteen (18) months after date of shipment, or twelve (12) months after installation, whichever occurs first. In addition, any PSM or C-700 register supplied with the meter is guaranteed to perform accurately for ten (10) years from the date of shipment by Kent.

Kent guarantees the 5/8", 3/4" and 1" PSM and C-700 Models to perform to AWWA New Meter Accuracy Standards for a period of eighteen (18) months after date of shipment, or twelve (12) months after installation, whichever occurs first.

At the expiration of this period, Kent guarantees the meters to meet or surpass AWWA Repaired Meter Accuracy Standards for the following time periods:

5/8" PSM and C-700 Models — ten (10) years from the date of shipment or the registration of one million gallons (1,000,000), whichever occurs first.

3/4" PSM and C-700 Models — ten (10) years from the date of shipment, or the registration of one million five hundred thousand gallons (1,500,000), whichever occurs first.

1" PSM and C-700 Models — ten (10) years from the date of shipment, or the registration of two million gallons (2,000,000), whichever occurs first.

Any meter which fails to meet the terms of the stated guarantee will be repaired or replaced at the option of Kent Meter Sales, Inc. without additional charge to the customer. The customer is responsible for returning the meter to the nearest factory service center and must assume the freight cost both ways.

Limits of Liability

This guarantee does not apply to meters damaged by aggressive water conditions, foreign matter in water, vandalism, negligence, improper installation, misapplication, acts of God, or other circumstances beyond the control of Kent Meter Sales, Inc.

PERFORMANCE ASSURANCE PROGRAM

In addition to the detailed guarantee provided above, Kent Meter Sales, Inc. hereby agrees to provide the following exclusive Meter Performance Assurance Program.

Beginning with the eleventh (11) year and continuing through the fifteenth (15) year after shipment from Kent or the registration of the following quantities for the appropriate sizes, Kent will repair to AWWA Repaired Meter Accuracy Standards, any Kent PSM or C-700 Water Meter covered by the above guarantee, for the charges indicated, with all freight charges paid by the customer:

5/8"	1,500,000 gallons	$ 6.00
3/4"	2,000,000 gallons	$10.00
1"	3,000,000 gallons	$15.00

The prices quoted in Kent's exclusive Performance Assurance Program are subject to adjustment for each 10% increase or decrease in the cost of living from April 1, 1979, as measured by the Consumer Price Index of the U.S. Bureau of Labor Statistics Manual, as of April 1st of any year.

The foregoing is in lieu of all other express or implied guarantees or warranties whatsoever, including, but not limited to, implied warranties (except of title) of merchantability and fitness for a particular purpose.

All water meters bid on and supplied to the Fort Wayne Water Utility, shall be manufactured in accordance with the latest revision of the appropriate American Water Works Association standard, designated for the particular type of meter to be bid and/or supplied as enumerated hereafter. All water meters shall have a bronze case and cast-iron frost, protective-type bottom plate; internal gear train shall be of magnetic coupling type; displacement type meters shall have a disc or piston-type measuring chamber; and all registers shall be of the Odometer type, calibrated in cubic feet (not in gallons).

Where options exist for fronze or plastic register covers and lids, which meet AWWA specifications (all other specs. same as above) and which can be punch-stamped by the Utility with meter identification number, bidder may provide separate alternate bids.

Where options exist for cast-bronze or injected molded plastic measuring chamber (all other specs. same as above), bidder may provide separate alternate bids.

OPTION RENEWAL

By mutual agreement between Utility and the supplier, the contract period may be extended for an additional period not to exceed one (1) year. However, the agreement to extend must be completed in writing not less than fifteen (15) days prior to expiration date. The contract may be extended only at the same price and under the same conditions governing the original contract.

AWWA Standards for Various Types of Meters

a. Displacement-type cold water meters shall be in accordance with AWWA Standard C700;

b. Compound-type cold water meters shall be in accordance with AWWA Standard C702;

c. Fire service-type cold water meters shall be in accordance with AWWA C703;

d. Turbine-type cold water meters shall be in accordance with AWWA C701;

e. Propeller-type cold water meters shall be in accordance with AWWA C704.

Memorandum

To Aaron Gluck, Purchasing Agent Date April 20, 1981

From D. L. Foland

Subject Bid offerings for water meters for 1981

COPIES TO:

J. Moran
P. Boller

I have reviewed the bid offerings for water meters for our 1981 usage from the standpoint of compliance with our specifications and with American Water Works Association Standard C-700. The following are my findings and recommendations, as a result of that review:

NEPTUNE PROPOSAL - Neptune meters offer meet all specifications and standards.

CARLON PROPOSAL - The A-Line magnetic drive meter offered, with bronze measurir chamber, do not have cast iron frost plates. Instead, they have bolt assemblies with shear pins which yield or break from frost stressing. The J-L series meters, which are equipped with plastic measuring, chambers can be supplied with cast iron frost plates. All Carlon meters offered seem to meet all other specifications and standards. However, insufficient data was supplied to show compliance with accuracy and pressure lost requirements noted in C-700.

KENT PROPOSAL - The Kent bid only included meters with plastic measuring chambers. Based on data provided, they seem to meet all specifications and standards except they do not have cast iron frost plates. As an alternate, their meters are equipped with an "exclusive patented Frost Plug" which pops out under moderate freezing conditions and the "top plate" is "designed" to fracture under extreme freezing conditions. No accuracy or pressure lost data was provided to evaluate for complaince with C-700 standards for these factors.

BADGER PROPOSAL - Badger bid only on meters with plastic measuring chambers with 5/8", 5/8" X 3/4" and 1" Recordall #25's and #40's meeting all specifications. The 3/4" Split Case meter offered has no cast iron frost plate. As an alternate, it has a plastic upper case section designed to break under freezing conditions. In evaluating the performance specifications for the Badger Recordall #25 (5/8" and 5/8" X 3/4") it was found the "safe maximum capacity" of 30 gpm is equal to that required under America- Water Works Association C-700 Standards for a 3/4" meter.

ROCKWELL PROPOSAL- The Rockwell meters offered meet all specifications and standards.

Based upon the above comments regarding my review of the bid offerings meeting our specifications and the American Water Works Association's standards, coupled with the quoted prices and scrap allowances, I recommend the following:

1. All meters purchased should be equipped with plastic measuring chambers.

TITLE OF ORDINANCE CITY UTILITIES P.O. 4-09488 FOR WATER METERS FOR WATER MAINTENANCE & SERVICE DEPARTMENT

6312

DEPARTMENT REQUESTING ORDINANCE BOARD OF PUBLIC WORKS

I-81-06-07

SYNOPSIS OF ORDINANCE CITY UTILITIES PURCHASE ORDER 4-09488 HAS BEEN ASSIGNED TO BADGER METER, I C FOR THE PURCHASE OF WATER METERS FOR THE WATER MAINTNENANCE AND SERVICE DEPARTMENT.
